***Index, A History of the: A Bookish Adventure from Medieval Manuscripts to the Digital Age* Dec 27 2022 A New York Times Editors' Choice Book Named a Most Anticipated Book of 2022 by Literary Hub and Goodreads A playful history of the humble index and its outsized effect on our reading lives. Most of us give little thought to the back of the book—it's just where you go to look things up. But as Dennis Duncan reveals in this delightful and witty history, hiding in plain sight is an unlikely realm of ambition and obsession, sparring and politicking, pleasure and play. In the pages of the index, we might find Butchers, to be**

*avoided, or Cows that sh-te Fire, or even catch Calvin in his chamber with a Nonne. Here, for the first time, is the secret world of the index: an unsung but extraordinary everyday tool, with an illustrious but little-known past. Charting its curious path from the monasteries and universities of thirteenth-century Europe to Silicon Valley in the twenty-first, Duncan uncovers how it has saved heretics from the stake, kept politicians from high office, and made us all into the readers we are today. We follow it through German print shops and Enlightenment coffee houses, novelists' living rooms and university laboratories, encountering emperors and popes, philosophers and prime ministers, poets, librarians and—of course—indexers along the way. Revealing its vast role in our evolving literary and intellectual culture, Duncan shows that, for all our anxieties about the Age of Search, we are all index-rakers at heart—and we have been for eight hundred years.*

*A History of Fear Apr 07 2021 "Readers, beware: this novel is not safe and will have you questioning what's real for many*

*sleepless nights to come.” —Clay McLeod Chapman, author of The Remaking “A disorienting, creepy, paranoia-inducing reimagining of the devil-made-me-do-it tale” (Paul Tremblay, author of The Cabin at the End of the World) following the harrowing downfall of a tortured graduate student arrested for murder. The Devil is in Scotland. Grayson Hale, the most infamous murderer in Scotland, is better known by a different name: the Devil’s Advocate. The twenty-five-year-old American grad student rose to instant notoriety when he confessed to the slaughter of his classmate Liam Stewart, claiming the Devil made him do it. When Hale is found hanged in his prison cell, officers uncover a handwritten manuscript that promises to answer the question that’s haunted the nation for years: was Hale a lunatic, or had he been telling the truth all along? Unnervingly, Hale doesn’t fit the bill of a killer. The first-person narrative that centers this novel reveals an acerbic young atheist, newly enrolled at the University of Edinburgh to carry on the legacy of his recently deceased father. In need of cash, he takes a job*

***ghostwriting a mysterious book for a dark stranger, but has misgivings when the project begins to reawaken his satanophobia, a rare condition that causes him to live in terror that the Devil is after him. As he struggles to disentangle fact from fear, Grayson's world is turned upside-down after events force him to confront his growing suspicion that he's working for the one he has feared all this time—and that the book is only the beginning of their partnership. A History of Fear is a propulsive foray into the darkness of the human psyche, marrying dread-inducing atmosphere and heart-palpitating storytelling.***

***The Darker Nations Sep 24 2022 An alternative history of the Cold War from the perspective of impoverished Third-World people includes coverage of such topics as the 1927 Brussels conclave of the League Against Imperialism and the launch of the Third World project during the 1955 conference in Indonesia. ***An American Bible Jun 28 2020 "An American Bible is an extremely compelling piece of cultural history that succeeds in making rich rather than schematic sense of the major dramas that lay behind the production of over 1,700 different American editions of the Bible in the century after the American Revolution. Gutjahr's book is especially powerful in demonstrating how nineteenth-century efforts to purge the Bible of textual and translational impurities in search of an 'authentic' text led ironically to the emergence of entirely new gospels like the Book of Mormon and the massive fictionalized literature dealing with the life of Christ." --Jay Fliegelman, Stanford University During the first three-quarters of the nineteenth century, American publishing experienced unprecedented, exponential growth. An emerging market economy, widespread religious revival,***

***educational reforms, and innovations in print technology worked together to create a culture increasingly formed and framed by the power of print. At the center of this new culture was the Bible, the book that has been called "the best seller" in American publishing history. Yet it is important to realize that the Bible in America was not a simple, uniform entity. First printed in the United States during the American Revolution, the Bible underwent many revisions, translations, and changes in format as different editors and publishers appropriated it to meet a wide range of changing ideological and economic demands. This book examines how many different constituencies (both secular and religious) fought to keep the Bible the preeminent text in the United States as the country's print marketplace experienced explosive growth. The author shows how these heated battles had profound consequences for many American cultural practices and forms of printed material. By exploring how publishers, clergymen, politicians, educators, and lay persons met the threat that new printed material posed***

***to the dominance of the Bible by changing both its form and its contents, the author reveals the causes and consequences of mutating God's supposedly immutable Word.***

***End of History and the Last Man Jan 24 2020 Ever since its first publication in 1992, The End of History and the Last Man has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, The End of History and the Last Man is a modern classic.***

***Origin Story Jul 30 2020 A captivating history of the universe -- from before the dawn of time through the far reaches of the distant future. Most historians study the smallest slivers of time, emphasizing specific dates, individuals, and documents. But what would it look like to study the whole of history, from the big bang through the present day -- and even into the remote future? How would looking at the full span of time change the way we perceive the universe, the earth, and our very existence? These were the questions David Christian set out to answer when he created the field***

***of "Big History," the most exciting new approach to understanding where we have been, where we are, and where we are going. In Origin Story, Christian takes readers on a wild ride through the entire 13.8 billion years we've come to know as "history." By focusing on defining events (thresholds), major trends, and profound questions about our origins, Christian exposes the hidden threads that tie everything together -- from the creation of the planet to the advent of agriculture, nuclear war, and beyond. With stunning insights into the origin of the universe, the beginning of life, the emergence of humans, and what the future might bring, Origin Story boldly reframes our place in the cosmos.***

***A Social History of the Chinese Book May 20 2022 In this learned, yet readable, book, Joseph McDermott introduces the history of the book in China in the late imperial period from 1000 to 1800. He assumes little knowledge of Chinese history or culture and compares the Chinese experience with books with that of other civilizations, particularly the European. Yet he deals with a wide range of issues in the history of the***

***book in China and presents novel analyses of the changes in Chinese woodblock bookmaking over these centuries. He presents a new view of when the printed book replaced the manuscript and what drove that substitution. He explores the distribution and marketing structure of books, and writes fascinatingly on the history of book collecting and about access to private and government book collections. In drawing on a great deal of Chinese, Japanese, and Western research this book provides a broad account of the way Chinese books were printed, distributed, and consumed by literati and scholars, mainly in the lower Yangzi delta, the cultural center of China during these centuries. It introduces interesting personalities, ranging from wily book collectors to an indigent shoe-repairman collector. And, it discusses the obstacles to the formation of a truly national printed culture for both the well-educated and the struggling reader in recent times. This broad and comprehensive account of the development of printed Chinese culture from 1000 to 1800 is written for anyone interested in the history***

***of the book. It also offers important new insights into book culture and its place in society for the student of Chinese history and culture. 'A brilliant piece of synthetic research as well as a delightful read, it offers a history of the Chinese book to the eighteenth century that is without equal.' - Timothy Brook, University of British Columbia 'Writers, scribes, engravers, printers, binders, publishers, distributors, dealers, literati, scholars, librarians, collectors, voracious readers – the full gamut of a vibrant book culture in China over one thousand years – are examined with eloquence and perception by Joseph McDermott in The Social History of the Book. His lively exploration will be of consuming interest to bibliophiles of every persuasion.' - Nicholas A. Basbanes, author of A Gentle Madness, Patience and Fortitude, A Splendor of Letters, and Every Book Its Reader Joseph McDermott is presently Fellow of St John's College, Cambridge, and University Lecturer in Chinese at Cambridge University. He has published widely on Chinese social and economic history, most recently on the***

***A History of the Book in America Jul 10 2021 The fifth volume of A History of the Book in America addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization, and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading--in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies--receive imaginative scrutiny as well. The Enduring Book demonstrates that the corporate consolidations of the last half-century have***

***The Oxford Illustrated History of the Book Dec 15 2021 In 14 original essays, The Oxford Illustrated History of the Book reveals the history of books in all their various forms, from the ancient world to the digital present. Leading international scholars offer an original and richly illustrated narrative that is global in scope. The history of the book is the history of millions of written, printed, and illustrated texts, their manufacture, distribution, and reception. Here are different types of***

***production, from clay tablets to scrolls, from inscribed codices to printed books, pamphlets, magazines, and newspapers, from written parchment to digital texts. The history of the book is a history of different methods of circulation and dissemination, all dependent on innovations in transport, from coastal and transoceanic shipping to roads, trains, planes and the internet. It is a history of different modes of reading and reception, from learned debate and individual study to public instruction and entertainment. It is a history of manufacture, craftsmanship, dissemination, reading and debate. Yet the history of books is not simply a question of material form, nor indeed of the history of reading and reception. The larger question is of the effect of textual production, distribution and reception - of how books themselves made history. To this end, each chapter of this volume, succinctly bounded by period and geography, offers incisive and stimulating insights into the relationship between books and the story of their times.***

***madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.***

***The Dawn of Everything Aug 31 2020***

***INSTANT NEW YORK TIMES BESTSELLER***

***A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European***

***society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society.***

***The Coming of the Book Feb 23 2020  
Books, and the printed word more generally, are aspects of modern life that are all too often taken for granted. Yet the emergence of the book was a process of immense historical importance and heralded the dawning of the epoch of modernity. In this much praised history of that process, Lucien Febvre and Henri-Jean Martin mesh together economic and technological history, sociology and anthropology, as well as the study of modes of consciousness, to root the development of the printed word in the changing social relations and ideological struggles of Western Europe.***

***Something New Under the Sun Oct 13 2021  
"One of those rare books that's both sweeping and specific, scholarly and readable...What makes the book stand out is its wealth of historical detail." —Elizabeth Kolbert, The New Yorker  
The history of the twentieth century is most often told through its world wars, the rise and fall of communism, or its economic upheavals. In his startling book, J. R. McNeill gives us our***

***first general account of what may prove to be the most significant dimension of the twentieth century: its environmental history. To a degree unprecedented in human history, we have refashioned the earth's air, water, and soil, and the biosphere of which we are a part. Based on exhaustive research, McNeill's story—a compelling blend of anecdotes, data, and shrewd analysis—never preaches: it is our definitive account. This is a volume in The Global Century Series (general editor, Paul Kennedy).***

***History of Shit Sep 12 2021 "A brilliant account of the politics of shit. It will leave you speechless." Written in Paris after the heady days of student revolt in May 1968 and before the devastation of the AIDS epidemic, History of Shit is emblematic of a wild and adventurous strain of 1970s' theoretical writing that attempted to marry theory, politics, sexuality, pleasure, experimentation, and humor. Radically redefining dialectical thought and post-Marxist politics, it takes an important—and irreverent—position alongside the works of such postmodern thinkers as Foucault, Deleuze, Guattari, and Lyotard. Laporte's***

*eccentric style and ironic sensibility combine in an inquiry that is provocative, humorous, and intellectually exhilarating. Debunking all humanist mythology about the grandeur of civilization, History of Shit suggests instead that the management of human waste is crucial to our identities as modern individuals—including the organization of the city, the rise of the nation-state, the development of capitalism, and the mandate for clean and proper language. Far from rising above the muck, Laporte argues, we are thoroughly mired in it, particularly when we appear our most clean and hygienic. Laporte's style of writing is itself an attack on our desire for "clean language." Littered with lengthy quotations and obscure allusions, and adamantly refusing to follow a linear argument, History of Shit breaks the rules and challenges the conventions of "proper" academic discourse.*

***Pulitzer Prize-winning historian, the powerful story of a fragile nation as it expands across a contested continent. In this beautifully written history of America's formative period, a preeminent historian upends the traditional story of a young nation confidently marching to its continent-spanning destiny. The newly constituted United States actually emerged as a fragile, internally divided union of states contending still with European empires and other independent republics on the North American continent. Native peoples sought to defend their homelands from the flood of American settlers through strategic alliances with the other continental powers. The system of American slavery grew increasingly powerful and expansive, its vigorous internal trade in Black Americans separating parents and children, husbands and wives. Bitter party divisions pitted elites favoring strong government against those, like Andrew Jackson, espousing a democratic populism for white men. Violence was both routine and organized: the United States invaded Canada, Florida, Texas, and much of Mexico, and forcibly***

***removed most of the Native peoples living east of the Mississippi. At the end of the period the United States, its conquered territory reaching the Pacific, remained internally divided, with sectional animosities over slavery growing more intense. Taylor's elegant history of this tumultuous period offers indelible miniatures of key characters from Frederick Douglass and Sojourner Truth to Elizabeth Cady Stanton and Margaret Fuller. It captures the high-stakes political drama as Jackson and Adams, Clay, Calhoun, and Webster contend over slavery, the economy, Indian removal, and national expansion. A ground-level account of American industrialization conveys the everyday lives of factory workers and immigrant families. And the immersive narrative puts us on the streets of Port-au-Prince, Mexico City, Quebec, and the Cherokee capital, New Echota. Absorbing and chilling, American Republics illuminates the continuities between our own social and political divisions and the events of this formative period.***

**How the Word Is Passed Feb 05 2021 This compelling "important and timely" (Drew Faust, Harvard Magazine) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has**

***been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, How the Word Is Passed illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal***

**history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be. Winner of the National Book Critics Circle Award for Nonfiction Winner of the Stowe Prize Winner of 2022 Hillman Prize for Book Journalism A New York Times 10 Best Books of 2021**

**A Companion to the History of the Book Apr 19 2022 A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose "As a stimulating overview of the multidimensional present state of the field, the Companion has no peer." Choice "If you want to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Eliot and Rose have done a fine job. Their volume can be heartily**

***recommended. “ Adrian Johns, Technology and Culture From the early Sumerian clay tablet through to the emergence of the electronic text, this Companion provides a continuous and coherent account of the history of the book. A team of expert contributors draws on the latest research in order to offer a cogent, transcontinental narrative. Many of them use illustrative examples and case studies of well-known texts, conveying the excitement surrounding this rapidly developing field. The Companion is organized around four distinct approaches to the history of the book. First, it introduces the variety of methods used by book historians and allied specialists, from the long-established discipline of bibliography to newer IT-based approaches. Next, it provides a broad chronological survey of the forms and content of texts. The third section situates the book in the context of text culture as a whole, while the final section addresses broader issues, such as literacy, copyright, and the future of the book. Contributors to this volume: Michael Albin, Martin Andrews, Rob Banham, Megan L Benton, Michelle P.***

**The History of Love: A Novel May 08 2021  
ONE OF THE MOST LOVED NOVELS OF THE  
DECADE. A long-lost book reappears,  
mysteriously connecting an old man  
searching for his son and a girl seeking a  
cure for her widowed mother's loneliness.  
Leo Gursky taps his radiator each evening to  
let his upstairs neighbor know he's still  
alive. But it wasn't always like this: in the  
Polish village of his youth, he fell in love and  
wrote a book...Sixty years later and half a  
world away, fourteen-year-old Alma, who**

***was named after a character in that book, undertakes an adventure to find her namesake and save her family. With virtuosic skill and soaring imaginative power, Nicole Krauss gradually draws these stories together toward a climax of "extraordinary depth and beauty" (Newsday).***

***A History of the Bible May 28 2020 In Western culture, the Bible is monolithic. John Barton argues that the Bible is not a prescription to a complete, fixed religious system, but rather a product of a long and intriguing process, which has inspired Judaism and Christianity, but still does not describe the whole of either religion. He further argues that a thorough understanding of the history and context of its writing encourages religious communities to move away from the Bible's literal wording - which is impossible to determine - and focus instead on the broader meanings of scripture.***

***The Book of Amazing History Jun 09 2021***

***The Amazing Book of History is a 708-page***

*collection of hundreds of articles, lists, quotes, and anecdotes that explore a lively range of human history, from the ancient world to the recent past to pop culture. The hardcover volume looks at history from an anything-goes perspective, with nearly 300 dynamic tales of people, places, and events. Its innovative approach and witty style should appeal to a wide range of readers.*

*Burning the Books Jan 04 2021 The director of the famed Bodleian Libraries at Oxford narrates the global history of the willful destruction—and surprising survival—of recorded knowledge over the past three millennia. Libraries and archives have been attacked since ancient times but have been especially threatened in the modern era. Today the knowledge they safeguard faces purposeful destruction and willful neglect; deprived of funding, libraries are fighting for their very existence.*

*Burning the Books recounts the history that brought us to this point. Richard Ovenden describes the deliberate destruction of knowledge held in libraries and archives from ancient Alexandria to contemporary Sarajevo, from smashed Assyrian tablets in*

***Iraq to the destroyed immigration documents of the UK Windrush generation. He examines both the motivations for these acts—political, religious, and cultural—and the broader themes that shape this history. He also looks at attempts to prevent and mitigate attacks on knowledge, exploring the efforts of librarians and archivists to preserve information, often risking their own lives in the process. More than simply repositories for knowledge, libraries and archives inspire and inform citizens. In preserving notions of statehood recorded in such historical documents as the Declaration of Independence, libraries support the state itself. By preserving records of citizenship and records of the rights of citizens as enshrined in legal documents such as the Magna Carta and the decisions of the US Supreme Court, they support the rule of law. In Burning the Books, Ovenden takes a polemical stance on the social and political importance of the conservation and protection of knowledge, challenging governments in particular, but also society as a whole, to improve public policy and funding for these essential***

***History Nov 02 2020 Chronologically traces the course of human history and civilization from prehistoric times to the present day, covering key events, people, inventions and discoveries, and ideas and beliefs.***

***A History of the Book in America Oct 21 2019 In a period characterized by expanding markets, national consolidation, and social upheaval, print culture picked up momentum as the nineteenth century turned into the twentieth. Books, magazines, and newspapers were produced more quickly and more cheaply, reaching ever-increasing numbers of readers. Volume 4 of A History of the Book in America traces the complex, even contradictory consequences of these changes in the production, circulation, and use of print. Contributors to this volume explain that although mass production encouraged consolidation and standardization, readers increasingly adapted print to serve their own purposes, allowing for increased diversity in the midst of concentration and integration. Considering the book in larger social and cultural networks, essays address***

***the rise of consumer culture, the extension of literacy and reading through schooling, the expansion of secondary and postsecondary education and the growth of the textbook industry, the growing influence of the professions and their dependence on print culture, and the history of relevant technology. As the essays here attest, the expansion of print culture between 1880 and 1940 enabled it to become part of Americans' everyday business, social, political, and religious lives. *These Truths: A History of the United States Oct 01 2020 New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these*

*truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? These Truths tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator;*

***William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," These Truths observes. "It can't be shirked. There's nothing for it but to get to know it."***
