Writing Without Bullshit May 23 2022 Joining the ranks of classics like *The Elements of Style* and *On Writing Well*, *Writing Without Bullshit* helps professionals get to the point to get ahead. It's time for *Writing Without Bullshit*. *Writing Without Bullshit* is the first comprehensive guide to writing for today's world: a noisy environment where everyone reads what you write on a screen. The average news story now gets only 36 seconds of attention. Unless you change how you write, your emails, reports, and Web copy don't stand a chance. In this practical and witty book, you'll learn to front-load your writing with pithy titles, subject lines, and opening sentences. You'll acquire the courage and skill to purge weak and meaningless jargon, wimpy passive voice, and cowardly weasel words. And you'll get used to writing directly to the reader to make every word count. At the center of it all is the Iron Imperative: treat the reader's time as more valuable than your own. Embrace that, and your customers, your boss, and your colleagues will recognize the power and boldness of your thinking. Transcend the fear that makes your writing weak. Plan and execute writing projects with confidence. Manage edits and reviews flawlessly. And master every modern format from emails and social media to reports and press releases. Stop writing to fit in. Start writing to stand out. Boost your career by writing without bullshit.

This book includes interviews from writers who wrote major studio releases (The Boy Next Door), staffed on television shows (American Crime, NCIS New Orleans, Sleepy Hollow), sold specs and television shows, placed in competitions, and were accepted to prestigious network and studio writing programs. These interviews are presented as Screenwriter Spotlights throughout the book and are supported by insight from top-selling agents and managers (including those who have sold scripts and pilots, had their writers named to prestigious lists such as The Black List and The Hit List) as well as working industry executives. Together, these anecdotes, learnings and perceptions, tied in with the author's extensive experience in and knowledge of the industry, will inform the reader about how the industry REALLY works, what it expects from both working and emerging writers, as well as what next steps the writer should engage in, in order to move their screenwriting career forward.

Career Construction Theory and Life Writing Nov 17 2021 This volume applies the insight and methods of career construction theory to explore how autobiographical writing is used in different professional careers, from fiction and journalism to education and medicine. It draws attention to the fact that a career is a particular kind of artefact with distinctive properties and features that can be analysed and compared, and puts forward a new theory of the relationship between narrative methodology and the vocation of writing. Career construction theory emerged in the late twentieth century, when changes to the patterns of our working lives caused large numbers of people to seek new forms of vocational guidance to navigate those changes. It employs a narrative paradigm in which periods of uncertainty are treated as experiences akin to 'writer's block', experiences which can be overcome first by imagining new character arcs, then by narrating them and finally by performing them. By encouraging clients to see their careers as stories of which they are both the metaphorical authors and the main protagonists, career construction counsellors enable them to envisage the next chapter in those stories. But despite the authorial metaphor, career construction theory has not been widely applied to analysis of professional careers in writing. The chapters in this volume remedy that gap and in various ways apply the insights of career construction theory to analyse the relationship between writing and professional life in diverse careers where writing is used. The chapters in this book were originally published in the journal Life Writing.
