Walking Dead Apr 06 2021 For once, Joanne Walker's not out to save the world. She's come to terms with the host of shamanic powers she's been given, her job as a police detective has been relatively calm, and she's got a love life for the first time in memory. Not bad for a woman who started out the year mostly dead. But it's Halloween, and the undead have just crashed Joanne's party. Now, with her mentor Coyote still missing, she has to figure out how to break the spell that has let the ghosts, zombies and even the Wild Hunt come back. Unfortunately, there's no shamanic handbook explaining how to deal with the walking dead. And if they have anything to say about it—which they do—no one's getting out of there alive.

Fair and Unfair Trials in the British Isles, 1800-1940 Jun 20 2022 Adopting a microhistory approach, *Fair and Unfair Trials in the British Isles, 1800-1940* provides an in-depth examination of the evolution of the modern justice system. Drawing upon criminal cases and trials from England, Scotland, and Ireland, the book examines the errors, procedural systems, and the ways in which adverse influences of social and cultural forces impacted upon individual instances of justice. The book investigates several case studies of both justice and injustice which prompted the development of forensic toxicology, the implementation of state propaganda and an increased interest in press sensationalism. One such case study considers the trial of William Sheen, who was prosecuted and later acquitted of the murder of his infant child at the Old Baily in 1827, an extraordinary miscarriage of justice that prompted outrage amongst the general public. Other case studies include trials for treason, theft, obscenity and blasphemy. Nash and Kilday root each of these cases within their relevant historical, cultural, and political contexts, highlighting changing attitudes to popular culture, public criticism, protest and activism as significant factors in the transformation of the criminal trial and the British judicial system as a whole. Drawing upon a wealth of primary sources, including legal records, newspaper articles and photographs, this book provides a unique insight into the evolution of modern criminal justice in Britain.

Demon Hunts Oct 24 2022 Seattle police detective Joanne Walker started the year mostly dead, and she's ending it trying not to be consumed by evil. Literally. She's proven she can handle the gods and the walking dead. But a cannibalistic serial killer?

That's more than even she bargained for. What's worse, the brutal demon can only be tracked one way. If Joanne is to stop its campaign of terror, she'll have to hunt it where it lives: the Lower World, a shamanistic plane of magic and spirits. Trouble is, Joanne's skills are no match for the dangers she's about to face—and her on-the-job training could prove fatal to the people she's sworn to protect....

The Body Papers Nov 25 2022 Winner of The Restless Books Prize for New Immigrant Writing “Grace Talusan writes eloquently about the most unsayable things: the deep gravitational pull of family, the complexity of navigating identity as an immigrant, and the ways we move forward even as we carry our traumas with us. Equal parts compassion and confession, *The Body Papers* is a stunning work by a powerful new writer who—like the best memoirists—transcends the personal to speak on a universal level.” —Celeste Ng, author of *Everything I Never Told You* and *Little Fires Everywhere* Born in the Philippines, young Grace Talusan moves with her family to a New England suburb in the 1970s. At school, she confronts racism as one of the few kids with a brown face. At home, the confusion is worse: her grandfather’s nightly visits to her room leave her hurt and terrified, and she learns to build a protective wall of silence that maps onto the larger silence practiced by her Catholic Filipino family. Talusan learns as a teenager that her family’s legal status in the country has always hung by a thread—for a time, they were “illegal.” Family, she’s told, must be put first. The abuse and trauma Talusan suffers as a child affects all her relationships, her mental health, and her relationship with her own body. Later, she learns that her family history is threaded with violence and abuse. And she discovers another devastating family thread: cancer. In her thirties, Talusan must decide whether to undergo preventive surgeries to remove her breasts and ovaries. Despite all this, she finds love, and success as a teacher. On a fellowship, Talusan and her husband return to the Philippines, where she revisits her family’s ancestral home and tries to reclaim a lost piece of herself. Not every family legacy is destructive. From her parents, Talusan has learned to tell stories in order to continue. The generosity of spirit and literary acuity of this debut memoir are a testament to her determination and resilience. In excavating such abuse and trauma, and supplementing her story with government documents, medical records, and family photos, Talusan gives voice to unspeakable experience, and shines a light of hope into the darkness.

The Afghanistan Papers Aug 18 2019 A Washington Post Best Book of 2021 The #1 New York Times bestselling investigative story of how three successive presidents and their military commanders deceived the public year after year about America’s longest war, foreshadowing the Taliban’s recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla conflict

in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public's understanding of Vietnam, The Afghanistan Papers contains "fast-paced and vivid" (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government's strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn't know the name of his Afghanistan war commander—and didn't want to meet with him. Secretary of Defense Donald Rumsfeld admitted that he had "no visibility into who the bad guys are." His successor, Robert Gates, said: "We didn't know jack shit about al-Qaeda." The Afghanistan Papers is a "searing indictment of the deceit, blunders, and hubris of senior military and civilian officials" (Tom Bowman, NRP Pentagon Correspondent) that will supercharge a long-overdue reckoning over what went wrong and forever change the way the conflict is remembered.

The Monsanto Papers Sep 23 2022 Lee Johnson was a man with simple dreams. All he wanted was a steady job and a nice home for his wife and children, something better than the hard life he knew growing up. He never imagined that he would become the face of a David-and-Goliath showdown against one of the world's most powerful corporate giants. But a workplace accident left Lee doused in a toxic chemical and facing a deadly cancer that turned his life upside down. In 2018, the world watched as Lee was thrust to the forefront of one of the most dramatic legal battles in recent history. The Monsanto Papers is the inside story of Lee Johnson's landmark lawsuit against Monsanto. For Lee, the case was a race against the clock, with doctors predicting he wouldn't survive long enough to take the witness stand. For the eclectic band of young, ambitious lawyers representing him, it was a matter of professional pride and personal risk, with millions of dollars and hard-earned reputations on the line. For the public at large, the lawsuit presented a question of corporate accountability. With enough money and influence, could a company endanger its customers, hide evidence, manipulate regulators, and get away with it all—for decades? Readers will be astounded by the depth of corruption uncovered, captivated by the shocking twists, and moved by Lee's quiet determination to see justice served. With gripping narrative force that reads like fiction, The Monsanto Papers takes readers

behind the scenes of a grueling legal battle, pulling back the curtain on the frailties of the American court system and the lengths to which lawyers will go to fight corporate wrongdoing.
