Jenifer Estess is a woman on the verge: She's about to launch her own company; she's looking buff and dating vigorously; she's driving in the fast lane -- with the top down. At the age of thirty-five, Jenifer dreams of falling in love and starting a family. Then she notices muscle twitches in her legs. Walking down a city block feels exhausting. At first, doctors write off Jenifer's symptoms to stress, but she is quickly diagnosed with ALS, a fatal brain disease that is absolutely untreatable. Max out your credit cards and see Paris, suggests one doctor. Instead of preparing to die, Jenifer gets busy. She dreams deeper, works harder, and loves endlessly. For Jenifer, being fatally ill is not about letting go. It's about

holding on and reaching -- for family, friends, goals. Jenifer's girlhood pact with her sisters Valerie and Meredith -- nothing will ever break us apart -- guides them as Jenifer faces down one of the most devastating illnesses known to humankind. That same enduring pact inspires the creation of Project A.L.S., a movement started by the sisters that changes the way science and medicine approach research for ALS and the related diseases Parkinson's and Alzheimer's, and which has already raised more than \$18 million. Will Project A.L.S. help scientists discover medicine in time for her? Jenifer answers these questions and others in this beautifully written and wholly inspiring memoir that celebrates a life fuelled by memory. Tales from the Bed forces us to reconsider society's notion of "having it all," and illustrates, more than anything, the importance of endurance, hope, and, most of all, love. Three novellas from the action-packed world of the bestselling Survivors series by Erin Hunter--together in print for the first time! In Survivors: Tales from the Packs, discover these

thrilling stand-alone adventures: *Alpha's Tale*: Before he became the fierce leader of the Wild Pack, Alpha learned to survive as the only half dog in a Pack of wolves. *Sweet's Journey*: In the aftermath of the Big Growl, Sweet left her friend Lucky to go in search of a Pack—and found a place as its Beta. *Moon's Choice*: When disaster struck the Pack that raised her, Moon lost the life she'd always known... and began a new one with the dog she loved. In this collection that offers a mixture of dark humor, witty quips, and unsettling observations about the human psyche, Eagleman offers 40 short tales that explore the afterlife. *Cycle of* interrelated stories that sympathetically view lonely and frustrated individuals in a midwestern town. Winner of the 2018 New Academy Prize in Literature In this collection of autobiographical essays, Maryse Condé vividly evokes the relationships and events that gave her childhood meaning: discovering her parents' feelings of alienation; her first crush; a falling out with her best friend; the death of her beloved grandmother; her

first encounter with racism. These gemlike vignettes capture the spirit of Condé's fiction: haunting, powerful, poignant, and leavened with a streak of humor. ???????

An anthology of short stories, *The Fall* explores different visions of the apocalypse. Ancient prophecies, technological Armageddon, failures of government, a distracted deity, and yes, zombies all have their moments in this collection, but so do love, yearning, hope, and humor. In the end, the apocalypse offers a path to new beginnings, even if it requires a trek through death, despair, and destruction to find them. In this collection of curious but delightful short stories by S. K.

Kruse, you never know who you're going to meet or where you're going to end up. You can be certain, however, that whether you follow Schrodinger's cat into the zeroth dimension or have drinks with a woman who's seen Gertrude Stein in the condensation on her window, you'll find yourself smack dab in the middle of some befuddling predicament of existence. Using humor and horror, satire and allegory, fabulism and realism, *Tales from the Liminal* takes you for an extraordinary ride, submerging you in spaces where anything is possible, especially transformation. There are rumors of a mechanical contraption that roams around the fields outside the small communities of the Mälaren Islands. At the same time, flyers asking for information on lost pets are increasing on the bulletin board outside the grocery store. On TV, the weatherman speaks of "random storm gusts" - and hasn't there been severely bad weather the past few nights? This is the beginning of a series of mysteries that lead the children out into the wilderness of *The Loop* and down into its secret

tunnels. But what does this all have to do with the long-awaited summer camp, the magnetine ship Susi Talvi, and the 1969 moon landing? This is a 124-page full-color hardback module to the multiple award-winning Tales from the Loop roleplaying game. Made in the UK. In Tales from a Snowbank, you will read about the challenges of surviving in a sub-arctic community, such as walking home from school with the fear of turning a corner and coming face-to-face with a big white bear. This is an autobiographical collection documenting the author's growth to adulthood in a small but significant Canadian community: Churchill, Manitoba. The work details his unique life and times, with humour and tenderness, and examines how the community and the author's life experiences were instrumental in shaping him. The book provides a wonderful glimpse back in time, as each chapter touches on different adventures in different decades, from illicit pool hall escapades in the 1950s, to meeting a pretty nurse in the 1960s. The book closes with the author's return

to Churchill with his new wife to visit his parents during the Christmas of 1970. This work shows readers a part of the world and a way of life very few have experienced, describing elements of the North, such as the polar bears, belugas, and seals; living in isolation and loneliness; the beauty of Hudson Bay, and the northern lights; and the warmth of community. The book will appeal to readers around the world who appreciate nostalgia, history, or biographies, as well as those interested in understanding what the North has to offer, and the deep historical ties Churchill has with the rest of Canada. The basis for the new Amazon Prime Original Series! Perfect for fans of E.T. and Stranger Things—the first narrative artbook from acclaimed author and artist Simon Stålenhag about a fictionalized suburban town in the 1980s inhabited by fantastic machines and strange, imaginative beasts. In 1954, the Swedish government ordered the construction of the world's largest particle accelerator. The facility was complete in 1969, located deep below the pastoral countryside of

Mälaröarna. The local population called this marvel of technology The Loop. These are its strange tales. From the same author who wrote the imaginative artbook *The Electric State*, this "haunting," (The Verge) "sophisticated sci-fi" (The Nerdist) follows the bizarre stories from otherworldly creatures and is a page-turner you won't be able to put down.

Popsugar, "Motivational Books You Should Read this Fall" *AM NY, "New Books for New Yorkers to Read This Fall"* The Lowdown on High Fashion Cosmopolitan.com editor Amy Odell knows what it's really like to be a young woman working in the fashion industry. In *Tales from the Back Row*, Amy—funny and fearless—takes readers behind the stage of New York's hottest fashion shows to meet the world's most

influential models, designers, celebrities, editors, and photographers. But first, she has to push her way through the crowds outside, where we see the lengths people go to be noticed by the lurking paparazzi, and weave her way through the packed venue, from the very back row to the front. And as Amy climbs the ladder (with tips about how you can, too), she introduces an industry powered by larger-than-life characters: she meets the intimidating Anna Wintour and the surprisingly gracious Rachel Zoe, not to mention the hilarious Chelsea Handler, and more. As she describes the allure of Alexander Wang's ripped tights and Marchesa's Oscar-worthy dresses, Amy artfully layers in something else: ultimately this book is about how the fashion industry is an exaggerated mirror of human fallibility—reflecting our desperate desire to belong, to make a mark, to be included. For Amy is the first to admit that as much as she is embarrassed by the thrill she gets when she receives an invitation to an exclusive after-party, she can't help but RSVP

"yes." Collects short stories chronicling Simon's journey from amnesia to Ascension, as he works to regain his lost life while attending the Shadowhunter Academy. The word Upanishad literally means 'sit down near' for the student had to sit close to the teacher to receive instructions. Perhaps, what brought the two still closer were the stories the Guru narrated. These stories provided a meaningful context for the topics under discussion. They also demonstrate that in those days knowledge was not the monopoly of any select group. Thus Janashruti, the ruler of the land, approaches the cart driver Raikva, with humility, to seek the highest truth. After agreeing to her husband's suggestion to remain married in name only to create a stable environment for their child, Lucy Klein, while dealing with her strange situation, children's parties, her cousin's wedding to herself, and dating, discovers how to be a great mom without losing her self-identity. Original. The most careless reader can hardly fail to see that many of the Tales in this volume have the same groundwork as those with

which he has been familiar from his earliest youth. They are Nursery Tales, in fact, of the days when there were tales in nurseries—old wives' fables, which have faded away before the light of gas and the power of steam. It is long, indeed, since English nurses told these tales to English children by force of memory and word of mouth. In a written shape, we have long had some of them, at least, in English versions of the *Contes de ma Mere l' Oye* of Perrault, and the *Contes de Fees* of Madame D'Aulnoy; those tight-laced, high-heeled tales of the 'teacup times' of Louis XIV and his successors, in which the popular tale appears to as much disadvantage as an artless country girl in the stifling atmosphere of a London theatre. From these foreign sources, after the voice of the English reciter was hushed—and it was hushed in England more than a century ago—our great-grandmothers learnt to tell of Cinderella and Beauty and the Beast, of Little Red Riding-hood and Blue Beard, mingled together in the *Cabinet des Fees* with Sinbad the Sailor and Aladdin's wondrous lamp; for that was

an uncritical age, and its spirit breathed hot and cold, east and west, from all quarters of the globe at once, confusing the traditions and tales of all times and countries into one incongruous mass of fable, as much tangled and knotted as that famous pound of flax which the lassie in one of these Tales is expected to spin into an even wool within four-and-twenty hours. In the small Colombian mountain village of Mariquita, a band of guerrillas storms in to protest the country's ruling government. They arrive with propaganda and guns, and when they depart they have forcibly recruited all the town's men, leaving behind only a few—the priest and a young, fair-skinned boy disguised as a little girl. In their wake, Mariquita becomes a sinking wasteland filled with women who quickly resign themselves to food shortages, littered streets, and mourning. Without men, life is hopeless, and getting along, nearly impossible. But, Rosalba viuda de Patiño, wife of the former police sergeant, sees a different fate for the town of widows. She declares herself magistrate and promises to instill

law and order while restoring the failing economy and infrastructure. Reluctantly, the women agree to join forces. A utopia emerges, one that ironically resembles the ideal society the guerrilla group claims to promote. Deft, rich, and darkly humorous, *Tales from the Town of Widows* is a captivating exploration of gender and sexuality that uses the ongoing conflict in Colombia as a backdrop. It presents a fascinating portrait of ill-fated wives and the war that helped them build a peaceful, equality-based society.

Exquisitely wrought, remarkably original, James Cañón's stunning debut marks the arrival of an unforgettable new literary talent. *The Labyrinth* is a unique vision of a dystopian future from one of the most sought-after visual storytellers in the world. A world covered by ruins and ash, the remnants of an otherworldly phenomenon that has ravaged the earth's atmosphere and forced the few survivors deep underground. Matt, Sigrid and Charlie leave the safe harbour of the enclave for an expedition onto the wastelands of the surface world. During their journey they

are forced to confront dark secrets from the time before civilization's fall. Simon Stålenhag is the internationally acclaimed author and artist behind *Tales From the Loop*, *Things From the Flood* and *The Electric State*. He is world-renowned for his highly imaginative images and stories depicting illusive sci-fi phenomena in mundane, hyper-realistic Scandinavian landscapes. Perfect for fans of everything from *Stranger Things* to *Jurassic Park* to *Westworld*. PRAISE for SIMON STALENHAG

NPR Best Books of 2018 A teen girl and her robot embark on a cross-country mission in this illustrated science fiction story, perfect for fans of Ready Player One and Black Mirror. In late 1997, a runaway teenager and her small yellow toy robot travel west through a strange American landscape where the ruins of gigantic battle drones litter the countryside, along with the discarded trash of a high-tech consumerist society addicted to a virtual-reality system. As they approach the edge of the continent, the world outside the car window seems to unravel at an ever faster pace, as if somewhere beyond the horizon, the hollow core of civilization has finally caved in. A veteran tells his story of suffering from traumatic brain injury—and finally finding relief. Former Green Beret Andrew Marr served multiple tours of duty in Afghanistan—incurring dozens of traumatic brain injuries. It just about destroyed him and his family, and almost cost him his life. After the military medical establishment repeatedly failed him, Marr

called upon the initiative and determination that had served him as a warrior—and eventually triumphed with the help of an innovative doctor. As thousands of veterans, athletes, accident victims, and other TBI sufferers wallow in the wake of inadequate treatment—and in many tragic cases, turn to suicide—this book offers new hope and explains the science behind this very specific kind of healing, and why conventional protocols fail. “Takes us from the battlefields of Afghanistan to Andrew’s unrelenting battle to be whole again . . . a raw reminder that even in a brain injured state, the mind can clearly triumph.” —Joe Rogan

A psychologist shares a variety of case studies from his decades-long career working with troubled and mentally ill patients. *Tales from the Couch* is a collection of actual case studies and a primer on psychopathology, as well as a captivating reflection on the human condition. Drawn from Dr. Bob Wendorf's thirty-six-year career as a clinical psychologist, the book examines the lives of some of his most troubled patients, in accounts that will both educate and fascinate readers. Clinical syndromes are described and dramatized by real-life case examples (altered only as necessary to protect patient confidentiality). Each of the sixteen chapters focuses on a particular psychiatric diagnosis, including Multiple Personality Disorder, Asperger's, and ADD. The clinical picture and symptoms are described and explained, then brought to life by case examples taken from the author's practice. Dr. Wendorf presents the cases as a series of narratives—some dramatic, some humorous, most quite poignant. Along the way, the

author offers his own reactions to the people and events described here and application to the general human condition as well. *Tales from the Couch* offers compelling stories of extraordinary people, clinical conditions, and events—both in and out of the therapy hour—while providing insights into the nature of human beings, mental illness, and the psychotherapeutic enterprise.
