The ladies of the Cackleberry Club café serve up justice in the latest installment from the New York Times bestselling author of Eggs in a Casket.

TIME TO EGGS-TINGUISH AN ARSONIST. Getting her hair colored at Root 66, Suzanne is stunned to witness the County Services office next door suddenly go up in flames. Sadly, the fire claims the life of longtime civil service worker—and friend to the Cackleberry Club—Hannah Venable. When it's discovered that an accelerant was used to fan the flames, Suzanne, Petra, and Toni vow to smoke out the culprit. When Suzanne finds a possible connection between the fire and the nearby Prairie Star Casino, she comes to realize that the arsonist wanted something very big and bad kept secret. And if the ladies aren't careful, they may be the

ones gambling with their lives... From the bestselling author of *The Girl from Munich*, a sweeping, dramatic tale of love and identity, inspired by a true story. After enduring the horror of Nazi Germany and the chaos of postwar occupation, Lotte Drescher and her family arrive in Australia in 1956 full of hope for a new life. It's a land of opportunity, where Lotte and her husband Erich dream of giving their children the future they have always wanted. After years of struggling to find their feet as New Australians, Erich turns his skill as a wood carver into a successful business and Lotte makes a career out of her lifelong passion, photography.

The sacrifices they have made finally seem worth it until Erich's role in the trade union movement threatens to have him branded a communist and endanger their family. Then darker shadows of the past reach out to them from Germany, a world and a lifetime away. As the Vietnam War looms, an unexpected visitor forces Lotte to a turning point. Her decision will change her life forever . . . and will finally show her the true meaning of home. PRAISE FOR TANIA BLANCHARD 'Captures the intensity of a brutal and unforgiving war, successfully weaving love, loss, desperation and, finally, hope into a gripping journey of self-

discovery.' Courier Mail 'An epic tale, grand in scope ... Packs an emotional punch that will reverberate far and wide.' Weekly Times 'A tumultuous journey from order to bedlam, and from naive acceptance of the status quo to the gradual getting of political wisdom.' Sunday Age 'An original and innovative take on the World War II genre that captures the hauntingly desperate essence of the war. Tania Blanchard has written yet another spectacular novel. Don't miss this.' Better Reading 'A sweeping, dramatic tale of love and identity.' Fraser Coast Chronicle DK Eyewitness Top 10 Phuket leads you straight to the best attractions this region

New York Times bestselling author of *Agony of the Leaves*, Indigo Tea Shop owner Theodosia Browning may always be a bridesmaid, never a bride, but this groom is never going to make it to the altar... Theodosia Browning's dear friend Delaine Dish has asked her to be a bridesmaid for her wedding. But when the big day arrives, everything seems to be going wrong. First, a massive storm is brewing over Charleston. A bad omen? Second, Delaine's sister is late for the ceremony. And finally, the groom not only has cold feet—his whole body is cold. A murderer has crashed the wedding. As Theodosia comforts a devastated Delaine,

she needs to sort out the suspects on the groom's side from the suspects on the bride's side. One thing soon becomes apparent—revenge won't be the only dish served cold at this wedding. And if Theodosia doesn't watch her step, a cold-blooded killer may have a rude reception in store for her... This Series provides the necessary elements to the development and validation of numerical prediction models for hydrodynamic bearings. This book describes the thermo-hydrodynamic and the thermo-elasto-hydrodynamic lubrication. The algorithms are methodically detailed and each section is thoroughly illustrated. The End of Chiraq:

A Literary Mixtape is a collection of poems, rap lyrics, short stories, essays, interviews, and artwork about Chicago, the city that came to be known as "Chiraq" ("Chicago" + "Iraq"), and the people who live in its vibrant and occasionally violent neighborhoods. Tuned to the work of Chicago's youth, especially the emerging artists and activists surrounding Young Chicago Authors, this literary mixtape unpacks the meanings of "Chiraq" as both a vexed term and a space of possibility. "Chiraq" has come to connote the violence—interpersonal and structural—that many Chicago youth regularly experience. But

the contributors to The End of Chiraq show that Chicago is much more than Chiraq. Instead, they demonstrate how young people are thinking and mobilizing, engaged in a process of creating a new and safer world for themselves, their communities, and their city. In true mixtape fashion, the book is an exercise in "low end theory" that does not just include so-called underground and marginal voices, but foregrounds them. Edited by award-winning poets, writers, and teachers Javon Johnson and Kevin Coval, The End of Chiraq addresses head-on the troublesome relationship between Chicago and Chiraq and envisions a future in which

both might be transformed. These companies test you fundamental skills in programming and design in three major areas- C Programming, Data Structures and C++ Programming. Most of you may have prepared for that "dream test" without knowing the exact pattern, the level and the difficulty of questions that appear in such tests. As a result, you are not able to give your best performance in these tests. This "Interview Questions" series addresses these

concerns and is aimed at giving you the necessary practice and confidence to help you crack these tests. This series presents a whole gamut on questions on different topics in each of these three subjects- C, DS and C++. This volume is dedicated to topics like :

The world certainly suffers no shortage of accounting texts. The many out there help readers prepare, audit, interpret and explain corporate financial statements. What has been missing is a book offering

context and discussion for divisive issues such as taxes, debt, options, and earnings volatility. King addresses the why of accounting instead of the how, providing practitioners and students with a highly readable history of U.S. corporate accounting. More Than a Numbers Game: A Brief History of Accounting was inspired by Arthur Levitt's landmark 1998 speech delivered at New York University. The Securities and Exchange Commission chairman described the too-little challenged custom of earnings management and presaged the breakdown in the US corporate accounting three years later. Somehow, over a

one-hundred year period, accounting morphed from a tool used by American railroad managers to communicate with absent British investors into an enabler of corporate fraud. How this happened makes for a good business story. This book is not another description of accounting scandals. Instead it offers a history of ideas. Each chapter covers a controversial topic that emerged over the past century. Historical background and discussion of people involved give relevance to concepts discussed. The author shows how economics, finance, law and business customs contributed to accounting's development. Ideas presented come from a

career spent working with accounting information. Addressing tax evasion and avoidance through use of tax havens has been the subject of a number of proposals in Congress and by the President. Actions by the Organization for Economic Cooperation and Development (OECD) and the G-20 industrialized nations also have addressed this issue. In the 111th Congress, the HIRE Act (P.L. 111-147) included several anti-evasion provisions, and P.L. 111-226 included foreign tax credit provisions directed at perceived abuses by U.S. multinationals. Numerous legislative proposals to address both individual tax evasion and corporate tax avoidance have

been advanced. Multinational firms can artificially shift profits from high-tax to low-tax jurisdictions using a variety of techniques, such as shifting debt to high-tax jurisdictions. Because tax on the income of foreign subsidiaries (except for certain passive income) is deferred until income is repatriated (paid to the U.S. parent as a dividend), this income can avoid current U.S. taxes, perhaps indefinitely. The taxation of passive income (called Subpart F income) has been reduced, perhaps significantly, through the use of hybrid entities that are treated differently in different jurisdictions. The use of hybrid entities was greatly expanded

by a new regulation (termed check-the-box) introduced in the late 1990s that had unintended consequences for foreign firms. In addition, earnings from income that is taxed often can be shielded by foreign tax credits on other income. On average, very little tax is paid on the foreign source income of U.S. firms. Ample evidence of a significant amount of profit shifting exists, but the revenue cost estimates vary substantially. Evidence also indicates a significant increase in corporate profit shifting over the past several years. Recent estimates suggest losses that may approach, or even exceed, \$100 billion per year. Individuals can

evade taxes on passive income, such as interest, dividends, and capital gains, by not reporting income earned abroad. In addition, because interest paid to foreign recipients is not taxed, individuals can evade taxes on U.S. source income by setting up shell corporations and trusts in foreign haven countries to channel funds into foreign jurisdictions. There is no general third-party reporting of income as is the case for ordinary passive income earned domestically; the Internal Revenue Service (IRS) relies on qualified intermediaries (QIs). In the past, these institutions certified nationality without revealing the beneficial owners.

Estimates of the cost of individual evasion have ranged from \$40 billion to \$70 billion. The Foreign Account Tax Compliance Act (FATCA; included in the HIRE Act, P.L. 111-147) introduced required information reporting by foreign financial intermediaries and withholding of tax if information is not provided. These provisions became effective only recently, and their consequences are not yet known. Most provisions to address profit shifting by multinational firms would involve changing the tax law: repealing or limiting deferral, limiting the ability of the foreign tax credit to offset income, addressing check-the-

box, or even formula apportionment. President Obama's proposals include a proposal to disallow overall deductions and foreign tax credits for deferred income, along with a number of other restrictions. Changes in the law or anti-abuse provisions have also been introduced in broader tax reform proposals. Provisions to address individual evasion include increased information reporting and provisions to increase enforcement, such as shifting the burden of proof to the taxpayer, increased penalties, and increased resources. Individual tax evasion is the main target of the HIRE Act, the proposed Stop Tax Haven

Abuse Act, and some other proposals. From first-aid essentials to life-saving procedures, it's worth having someone who knows what they are doing to cope with life's little (and big) emergencies. In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part

social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century. A Southwest Book of the Year \* 2005 Southwest Book Award "[A] monumental study." —Review of Texas Books "A reliable and handy general reference for those with an interest in cacti inside and outside this region. Recommended." —Choice "These authors have . . . provided the world with the much needed scientific clarification on this family of succulent plants that humans have loved and hated for thousands of years."

—Sida "Information: Wow! . . . For both lay readers and for researchers looking for lots of data about the cacti of this rich flora, this book offers fascinating details presented in a very readable fashion."

—Cactus and Succulents Journal "This will be the standard reference for decades to come."—Southwest Books of the Year Of the 132 species and varieties of cacti in Texas, about 104 of them occur in the fifteen counties of the Trans-Pecos region. This volume includes full descriptions of those many genera, species, and varieties of cacti, with sixty-four maps showing the distribution of each species in the region. The descriptions

follow the latest findings of cactus researchers worldwide and include scientific names; common names; identifying characters based on vegetative habit, flowers, fruit, and seeds; identification of flowerless specimens; and phenology and biosystematics. The introduction—full of details about the biology and morphology of the family Cactaceae, the uses of cacti, and the horticulture and conservation of cacti—is an important reference for general readers. More than three hundred beautiful full-color photographs of the cacti in flower and in fruit, all cross-referenced to their description in the text, highlight the book. A

glossary of cactus terms, an exhaustive list of literature, and a thorough index complete the book. The essential book from online tennis coaching sensation Ian Westermann, founder of EssentialTennis.com What's the number one thing stopping you from playing your best tennis? Ian Westermann, founder of the world's #1 online tennis instruction portal, Essentialtennis.com, will confidently say it's an obstacle you probably never thought of: The ball. You might think this sounds ridiculous. The whole point of tennis is to hit the ball over the net and in, so how can the ball be the thing that's standing in the way? In fact, this is why the ball is such an

impediment: your desire to hit a good shot, with the right mix of power and spin, to a specific spot on the court, prevents you from striking the ball the way you should. In Essential Tennis, readers - players and coaches, alike - will learn how improving at tennis actually happens and how to easily implement these lessons and integrate them into better play on the court. Players will hit stronger shots, make fewer errors, and beat players who are currently beating them. Coaches will look differently at what it means to provide a student with a holistic learning experience. Essential Tennis contains technique-based instruction for executing groundstrokes,

volleys, and serves, as well as progressions, drills, and mindsets players should incorporate. Westermann illuminates strokes, movement, strategy, and mental toughness - all proven to be successful over 20 years with clients of all ages and skill levels. Principles of Asynchronous Circuit Design - A Systems Perspective addresses the need for an introductory text on asynchronous circuit design. Part I is an 8-chapter tutorial which addresses the most important issues for the beginner, including how to think about asynchronous systems. Part II is a 4-chapter introduction to Balsa, a freely-available synthesis system for

asynchronous circuits which will enable the reader to get hands-on experience of designing high-level asynchronous systems. Part III offers a number of examples of state-of-the-art asynchronous systems to illustrate what can be built using asynchronous techniques. The examples range from a complete commercial smart card chip to complex microprocessors. The objective in writing this book has been to enable industrial designers with a background in conventional (clocked) design to be able to understand asynchronous design sufficiently to assess what it has to offer and whether it might be advantageous in their

next design task. The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explainin appropriate practice. Telyn Gwndal has always felt like an outcast. The illegitimate

child of a forbidden union that crossed the lines of feud, she bears the scorn of both of her parents' houses. Her conception and birth at the Fire Mountain, Raiador, is something Telyn views as a curse, and she would gladly forsake the strange bond she holds with her birthplace. But when a traitor brings her face-to-face with her destiny, deep within Raiador's core, her biggest ally is a man with secrets bigger than either of them.
