Beneath the Waves Jan 24 2020 Since the beginning of the Royal Navy Submarine Service in 1901, 173 submarines have been lost and in many circumstances with their entire crew. War inevitably takes a heavy toll: in World War Two alone – 341 officer and 2,801 ratings failed to return to harbour. The loss of personnel was roughly equivalent to the strength of the Submarine Arm at the outbreak of war. Between the first loss, A1 in 1904, and the last, Artemis in 1971, lie many stories in which cool nerve was very much in evidence and one can marvel at the escape of the only survivor of Perseus; and of the sinking of Olympus from which the few survivors had to swim seven miles before receiving help; and of Surgeon-Lieutenant Charles Rhodes who died that others may live. These and many other accounts of submarine escape are described within this history – and whenever possible in the words of survivors or witnesses.

*Kashmir Dispute, Pakistan and the Un Resolutions* Oct 25 2022 It is almost a ritual that the new army chief of Pakistan gives a strong statement against India to assure his people that he is also a brave soldier and is fully prepared to take on India. However, the new army chief of Pakistan, General Qamar Javed Bajwa, in his statement sent two messages. While speaking to his soldiers about line of control violations during a visit to the X Corps Rawalpindi, he said, Each violation of any kind must be responded to with full force in the most effective manner. After assuring his countrymen that he will also be tough with India, he, to the surprise of some, also sent a peace message when he said, The situation at the line of control will hopefully improve soon.

**The Employment of English** Aug 31 2020 What sorts of cultural criticism are teachers and scholars to produce and how can that criticism be "employed" in the culture at large? In *The Employment of English*, Michael Berube examines the cultural legitimacy of literary study. Berube asserts that we must situate these questions in a context in which nearly half of all college professors are part-time labor and in which English departments are torn between their traditional mission of defining the movements of literary history and the protocols of textual interpretation, and their newer tasks of interrogating wider systems of signification under rubrics like "gender," "hegemony," "rhetoric," "textuality" (including film and video), and "culture."

*Ralph Bunche and the Arab-Israeli Conflict* May 28 2020 "I swear by all that's Holy, I will never come anywhere near the Palestine problem once I liberate myself from this trap." Ralph Bunche wrote these lines to his wife in 1949, during the armistice talks on Rhodes. A year later, he was awarded the Nobel Peace Prize for his success in ending the 1948 Arab-Israeli war. *Ralph Bunche and the Arab-Israeli Conflict* provides a comprehensive study of Ralph Bunche's diplomatic activities on the Palestine question. Bunche was at the centre of the story from the referral of the issue to the United Nations in 1947 until the signing of the armistice agreements that ended the war. He began as advisor to UNSCOP and then headed the secretariat of the commission tasked with implementing partition. Later, after serving as the senior aide to UN mediator Folke Bernadotte, he was appointed to replace the Count after the latter's assassination. Using extensive archival materials (some of it revealed here for the first time), this book addresses central questions, such as the relationship between Bunche's African American identity and his diplomatic endeavours, and the complexities of his outlook on the Arab-Israeli conflict. Through research and careful analysis, it uncovers how Ralph Bunche managed to bridge the gaps between Israel and Arab states. This book will be of interest to students and scholars of Middle Eastern History, particularly Israeli History, as well as Political Science and Diplomacy.
