Nyt mä bonjaan Dec 17 2021 Gimma, brenkku ja dorga ovat useimmille tuttuja sanoja, mutta oletko koskaan miettinyt, kuinka paljon Stadin slangissa on sanoja työstä, tyhmästä tai alkoholista? Ehkä et, mutta vastaus löytyy tästä sanakirjasta. Muita suosittuja aihepiirejä ovat mm. poliisi ja maalainen. Tämä sanakirja perustuu Heikki ja Marjatta Paunosen Stadin slangin suursanakirjaan Tsennaaks Stadii, bonjaaks slangii (2000), josta he saivat vuonna 2001 Tieto-Finlandia-palkinnon. Hakusanoina ovat yleiskielen sanat, kuten tyttö ja tyhmä. Joka sanan kohdalla on mainittu kaikki siitä Stadin slangissa käytetyt vastineet käyttöaikoiheen. Hakusanoja on yhteensä yli 11 000. Slangi ei ole koskaan ollut sosiaalisesti korrektia kieltä. "Mikään luonnollinen ei ole häpeällistä", teroitti professori Matti Kuusi opiskelijoilleen 1960-luvulla. Tämä periaate on ohjannut Heikki Paunosta slanginkeruussakin. Tässäkään kirjassa mitään ei ole sensuroitu. Tämä kirja on myös opas Helsingin kaupunki- ja kulttuurihistoriaan yli sadan vuoden ajalta. Siitä löytyy niin 1900-luvun alkupuolen kengänkiillottajapoikien, blankkareiden ja jynssäreiden, kuin sata vuotta myöhempien graffitintekijöiden, peinttaajien ja kyhääjien, käyttämät sanat.

Exact Space-Times in Einstein's General Relativity Feb 07 2021 Einstein's theory of general relativity is a theory of gravity and, as in the earlier Newtonian theory, much can be learnt about the character of gravitation and its effects by investigating particular idealised examples. This book describes the basic solutions of Einstein's equations with a particular emphasis on what they mean, both geometrically and physically. Concepts such as big bang and big crunch-types of singularities, different kinds of horizons and gravitational waves, are described in the context of the particular space-times in which they naturally arise. These notions are initially introduced using the most simple and symmetric cases. Various important coordinate forms of each solution are presented, thus enabling the global structure of the corresponding space-time and its other properties to be analysed. The book is an invaluable resource both for graduate students and academic researchers working in gravitational physics.

Marks of Distinction Apr 28 2020 This study uses seals to examine and plot cultural interactions between the Aegean and Near Eastern worlds during the period of Minoan dominance (c.2600-1360 BC). By identifying distinctive features of seals from Anatolia, Syria and Egypt it is possible to plot geographical interconnections with the Aegean and the Aegean seals with styles influenced by them. The book contains an extensive catalogue of 253 seals.

Word-Formation and Creolisation Jan 26 2020 This book explores a relatively little investigated area of creole languages, word-formation. It provides the most comprehensive account so far of the word-formation patterns of an English-based creole language, Sranan, as found in its earliest sources, and compares them with the patterns attested in the input languages. One of the few studies of creole morphology based on

historical data, the book discusses the theoretical problems arising with the historical analysis of creole word-formation and provides an analysis along the lines of Booij's (2005, 2007) Construction Morphology in which the assumed boundaries between affixation, compounding and syntactic constructions play a very minor role. It shows that Early Sranan word-formation is characterised by the absence of superstrate derivational affixes, the use of free morphemes as derivational markers and of compounding as the major word-formation strategy. The emergence of Early Sranan word-formation involved multiple sources (the input languages, universals, language-internal development) and different mechanisms (reanalysis of free morphemes as derivational markers, adaptation of superstrate complex words, transfer from the substrates and the creation of innovations). The findings render untenable theoretical accounts of creole genesis based on one explanatory factor, such as superstrate or substrate influence.

The Alliance Without Enemy: a Post Cold War History of West Nov 04 2020 This book has the following features: • When we say “West,” what do we really mean? The prologue sets out to explore this question from literary, historical, strategic, philosophical, and cultural vantage points • In order to understand today’s West, different shades of the long and arduous transatlantic dialogue starting with Christopher Columbus’s accidental discovery of America to the collapse of Soviet Union have been reasonably accounted for. The second chapter traces back this evolutionary journey in simple, easily understandable way. • The book has been a fifteen-year story of phenomenal change, which redefined the very nature of the Western Alliance after the collapse of Soviet Union. • Changes in the geopolitical map of Europe, emergence of European Union, re-orientation of NATO, and the mutual play between the United States and Europe all throughout the decade of 1990s have been woven into the narrative of this book with the aim to understand how the West, if at all, has changed. • Three major events of post-Cold War history—the Balkan Crisis, the 9/11, and Iraq War 2003—had played major stimulus in re-understanding the West. Detailed chronological accounts of these events have been presented before the reader. • What are the rationale, motivations, and implications of EU and NATO’s enlargements to the East, and how has the enlargement impacted the Alliance. • The epilogue reflects upon what has changed and what continues in today’s West across different historical phases. • How have the schemes of European security in post-cold war era been coexisting with the changing face of NATO is yet another theme this book seeks to address.

Restless Seasons Sep 26 2022 Steve Dupree, an aspiring folksinger, sees his high school buddy Vic Power as everything Dupree dreams of being: a self-assured songwriter who hustles gigs out of thin air, relentlessly pursuing the dream of stardom. Bound by their love for music and the urge to see the world, their paths cross again and again over ten years and two continents. Their sometimes volatile musical partnership takes them from the beaches of Southern California to the German Alps to the canal-lined streets of Amsterdam and beyond. Along the way, Dupree learns lessons about love, loyalty, courage, and, ultimately, himself. As part of the international hippie movement of the late sixties and early seventies, Dupree and Power hop borders, dodge authorities, and share casual drugs and fleeting love—while tensions between the two threaten to tear their traveling band apart. As in his first novel, Avalon Summer, author David Matson Hooper seeks to capture place and time in vivid language, illuminating both the sunny ideals and the sometimes stormy realities of what it means to spend seasons in the wind. Cover art work by Robert Schmid and back cover photo by Karen Atha.

Arriving at Princeton for her freshman year, Thea Slavin finds herself alone, a stranger in a strange land. Falling into a romantic entanglement with Rhys and his equally handsome and mysterious brother, Jake, soon draws Thea into a sensual mythic underworld as irresistible as it is dangerous. And when the terrifying truth about her own family is revealed, it will transform her forever . . . if she falls under its spell. Mesmerizing and addictive, The Wildalone is a thrilling blend of the modern and the fantastic. Krassi Zourkova creates an atmospheric world filled with rich characters as fascinating and compelling as those of Diana Gabaldon, Deborah Harkness, and Stephenie Meyer.
